

High Speed Front/Back/Wrap Labeling System *Ideal for Oval, Rectangular and Cylindrical Containers*

The technically advanced, high-speed **VersaLine®** cabinet base labeling system is suitable for the harshest environments and capable of speeds up to 300 products per minute. This popular labeling system features two Q60 wipe-on label applicators, pacing wheel, chain aligners, wrap station, top hold down conveyor and extended outfeed for label on product inspect & product reject stations. Product changeovers are fast, accurate and repeatable with hand wheel adjustments.
